8 decembrie 2021

Conferința internațională a IMM-urilor „Clusterelor ca motoare ale competitivității economice reziliente, digitale și ecologice”

Conferinta de lansare CEX - IMAG, 4 iulie 2018

Proiectul CEX- IMAG

Obiectiv

Creșterea excelenței și productivității științifice aplicative a Clusterului IMAGO-MOL, prin dezvoltarea documentelor strategice de planificare CDI în vederea asigurării continuității și întărirea capacității instituționale într-un domeniu deosebit de important pentru sănătate – imagistica medicală, în corelare cu domeniul IT și biotehnologiile.

Sursa de finanțare

Planul National de Cercetare-Dezvoltare și Inovare pentru perioada 2015 - 2020

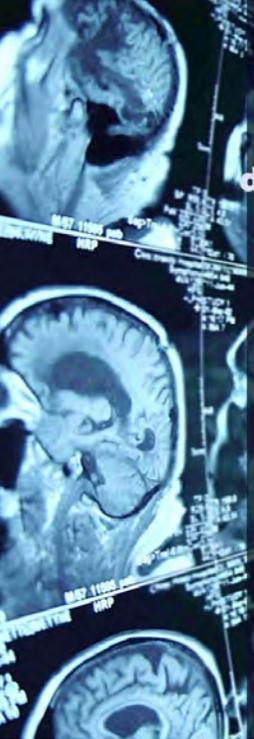

Buget

420.250 lei lei din care 350.000 lei
asistența financiară
nerambursabilă

Perioada de implementare

Iulie 2018 - August 2020

Cresterea excelenței Clusterului IMAGO-MOL prin dezvoltarea documentelor de planificare strategica CDI CEX – IMAG

Reuniunea Grupului de Lucru al Clusterului IMAGO-MOL

Iasi, 27 septembrie 2018

Campania de solidaritate IMAGO-MOL diseminata in cadrul intalnirilor Aliantei Nationale a Clusterelor si a Comitetului Economic și Social European

Romanian medical imaging Cluster IMAGO-MOL

Social commitment: We're in this together campaign

- ✓ launched to help its hospitals member, overwhelmed with unprotected medical staff in the fight against the COVID-19 pandemic.
- ✓ makes available its bank account and constitutes a fund dedicated for the necessary urgently needed protection supplies (gloves, masks, disinfectants, coveralls) and disinfection tunnels.
- ✓ promoted a start up from the IMAGO-MOL ecosystem that produces 3D medical face shields.

Innovation: Development of an equipment for protected breathing with air disinfection and germicidal textile material

- ✓ To be financed under the Covid 19 call within the National RDI Programme III

Digitalisation: Digital App connecting patients and pharma

- ✓ Developed by RomSoft, founding member of IMAGO MOL
- ✓ The purpose is to connect patients in search of a specific medicine with pharmacies that have it in stock

Facilitation and promotion of innovative projects and solutions

Development of an equipment for protected breathing with air disinfection and germicidal textile material proposal submitted under the Programme Solutions of the Executive Agency for Research, Development and Innovation Funding.

The coordinator of the consortium is the Technical University "Gheorghe Asachi" Iasi, the partners being the University of Medicine and Pharmacy "Grigore T. Popa" Iasi, Institute of Macromolecular Chemistry "Petru Poni" Cluj-Napoca Hospital of Pneumoftiziologie Iasi, all members of IMAGO-MOL Cluster.

Digital App EMIM Now Joining the Fight against COVID-19

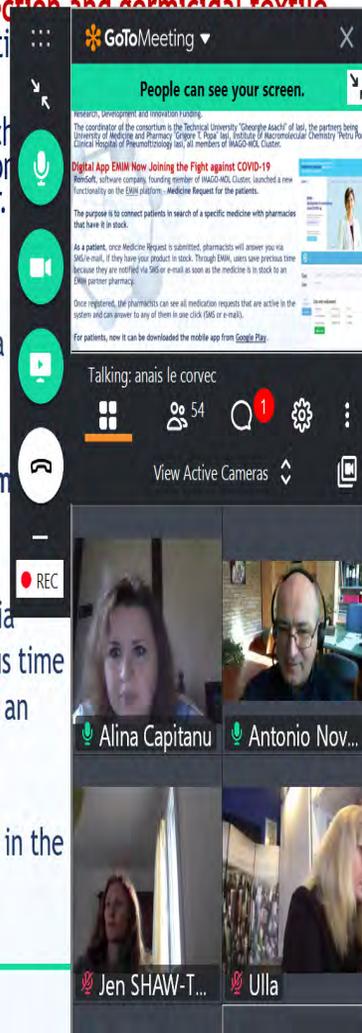

RomSoft, software company, founding member of IMAGO-MOL Cluster, launched a functionality on the EMIM platform - Medicine Request for the patients.

The purpose is to connect patients in search of a specific medicine with pharmacies that have it in stock.

As a patient, once Medicine Request is submitted, pharmacists will answer you via SMS/e-mail, if they have your product in stock. Through EMIM, users save precious time because they are notified via SMS or e-mail as soon as the medicine is in stock to an EMIM partner pharmacy.

Once registered, the pharmacists can see all medication requests that are active in the system and can answer to any of them in one click (SMS or e-mail).

For patients, now it can be downloaded the mobile app from Google Play.

1. Dezvoltare *Centru Regional de Excelenta pentru Diagnostic Personalizat si Inteligenta Artificiala in Medicina si Imagistica*

Oportunitate
finantare

Proiect POC - Mari infrastructuri de CD/Proiecte doar pentru cluster de inovare / ultima sansa de finantare nerambursabila din perioada (2014-2020) de programare a Fondurilor Structurale

Problema
si
contextul

Lipsa aparaturii imagistice performante in zona Moldovei (SPECT-CT)/ cu impact negativ asupra diagnosticului/ tratamentului/ costurilor de diagnostic si tratament (cf. memoriului MS 8042/25.06.2019)

Feza-
bilitate

Exista *resursa umana cu experienta* in cadrul Clusterului IMAGO-MOL: parteneriat medical (cadre universitare medici primari MN, specializari in Franta, conducere doctorat) – IT (Universitati, IMM-uri) /portofoliu proiecte / *Conditii de amplasare si exploatare* – Lab.MN “Prof.dr. V.Rusu” – spatiu si structura adecvate

Plan
proiect

Achizitia unui *dispozitiv SPECT-CT* (care ulterior perioadei de sustenabilitate ramane in dotarea Spitalului “Sf. Spiridon”) si *aparatura conexa pentru zona de exploatare IT*

Beneficiu
major

CLINIC - toti pacientii din Moldova / *medicii*/ diagnostic personalizat, abord chirurgical optim;
EDUCATIV - rezidenti/studenti/masteranzi; *CERCETARE*: doctoranzi/proiecte ulterioare- europene,nationale;
ECONOMIC - baza de date pentru aplicatii de inteligenta artificiala ale companiilor IT/ *investigatii clinice contracost*

Valoare
proiect
si co-
finantare

Valoare totala proiect – 1.300.000 euro; cofinantare partiala acceptata: UMF “Gr.T.Popa” / UAIC/Cluster; este necesara cofinantare si din partea Spitalului “Sf. Spiridon”

Necesar

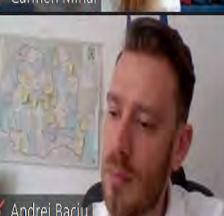

Este necesară o cofinantare cu suma de **150.000 euro (15% din costul total al aparatului SPECT-CT)** pentru Spitalul “Sf. Spiridon” din Iasi, avand in vedere faptul că spitalul se află în subordinea Ministerului Sanatatii

The role of clusters for the recovery

*Dr. Ulla Engelmann, Head of Unit DG GROW,
European Commission*

Ulla Engelman...

Ideal partner to channel funding for sustainable

Clusters are already operational in all Member States and across all industrial ecosystems

- hold real-time information on economic, technological development of companies and their needs
- can help saving resources and sharing knowledge, expertise to make investments in the recovery sustainable
- have experience in cascade funding from Horizon 2020 implementation
- direct relay in various industrial sectors to ensure fast and direct communication towards thousands of large firms, SMEs, research centres and public services supporting recovery

Galician automotive cluster

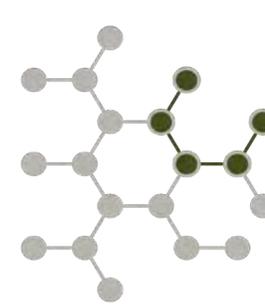

- Full sectorial recovery plan proposed to Regional Government of Galicia for relevant investments in skilling digital transformation and cooperation between companies
- Sectorial guide of preventive measures to finance protection of workers and adaptation to COVID-19

Romanian innovation cluster

- Help designing programme for Romanian hospitals to address COVID-19 pandemic
- Fund development for urgently needed protection supplies and disinfection tunnels
- Start-up from IMAGO-MOL cluster to produce medical face shields
